

# Ashutosh Pundir

CSE Student · Full-Stack Developer

Dehradun, Uttarakhand, India · +91 7302678018 · Pundirashu2491@gmail.com  
github.com/AshutoshPundir · linkedin.com/in/ashutosh-pundir

## PROFILE

Computer Science student focused on full-stack web development, modern frontend technologies, backend development and practical software projects. Interested in building clean, responsive applications and continuously improving problem-solving and software engineering skills.

## TECHNICAL SKILLS

|                   |                                                       |
|-------------------|-------------------------------------------------------|
| Languages         | JavaScript                                            |
| Front-End         | React.js · HTML · CSS · Tailwind CSS · Vite           |
| Back-End          | Node.js · Express.js · MongoDB · Mongoose · Zod · JWT |
| Tools & Platforms | Git · GitHub · VS Code · Postman                      |
| Core CS           | Data Structures & Algorithms · OOP                    |

## FEATURED PROJECTS

### 01 Algo Lens — AI Orchestration Platform

React · Tailwind CSS · GreenHack Hackathon, Spandan '26, GBPIET

- Built the frontend interface for managing multiple AI tools.
- Designed dashboards for AI tool comparison, usage analytics and organizational monitoring.
- Developed reusable components with API-driven workflows and modular layouts.
- Handled complete frontend responsibility as part of the hackathon team.

### 02 Namah — Real-Time Chat Application

React · Node.js · Express · MongoDB · Socket.IO

- Full-stack communication application with authentication, conversations and messaging.
- Includes protected routes, user profiles and real-time communication workflows.
- Designed around a REST API backend with a responsive React frontend.

### 03 AI-Assisted Construction Scheduling Platform

Current Hackathon Project

- Construction project scheduling and management platform.
- Focuses on activity/task planning, resource planning and cost/economic analysis.
- Designed to work with realistic Primavera schedule data for practical schedule validation.

## OTHER PROJECTS

Paytm Clone React · Node.js · Express · MongoDB · Zod · JWT

Full-stack digital payment interface with authentication, account management and money-transfer flows; API validation and MongoDB transaction handling.

StudySync HTML · CSS

Responsive educational-platform homepage focused on clean UI layout, accessibility and modular CSS.

Blog Website HTML · CSS · Public Image API

Responsive blog layout using reusable cards, CSS Grid and dynamically rendered API content.

Weather App HTML · CSS · JavaScript · OpenWeather API

Real-time weather application using a public REST API and dynamic location-based weather rendering.

Todo App HTML · CSS · JavaScript

Task manager with add/delete/complete functionality and localStorage persistence; deployed on Vercel.

## EDUCATION

Govind Ballabh Pant Institute of Engineering and Technology Oct 2024 – Present

B.Tech in Computer Science and Engineering — Pauri, Uttarakhand

Jawahar Navodaya Vidyalaya, Pokhal 2021 – 2023

Higher Secondary School

## HACKATHON & DEVELOPMENT

Participated in GreenHack Hackathon, Spandan '26, GBPIET, building Algo Lens, an AI orchestration platform. Current work also includes a construction scheduling platform focused on realistic project schedule data and analysis.

## CURRENT DIRECTION

- Full-stack web development
- Backend engineering
- Data Structures & Algorithms
- Building practical products
- Improving software engineering fundamentals

## INTERESTS & LANGUAGES

Interests: Photography · Traveling · Chess

Languages: English · Hindi
